Car Sales Analysis – Interview Summary

1️⃣ Overall Business Performance

- **Total Revenue:** 672M
- **Total Units Sold:** 23,906
- **Average Price:** ~28K
- **Dealers:** 28
- **Companies:** 30

📌 Insight: Business stable hai, lekin revenue concentration aur segment dependency visible hai.

2️⃣ Gender-Based Revenue Insight

- Male Contribution ≈ 80%
- Female Contribution ≈ 20%

Key Finding:

Sales heavily male-dominated hai.

Strategic Opportunity:

- Female-focused campaigns
- Safety + compact models positioning
- Targeted financing programs

👉 Untapped segment growth potential exist karta hai.

3 Body Style Performance Analysis

Body Style	Revenue	Avg Price	Strategic Role
SUV	170M	26.7K	Revenue Driver
Hatchback	166M	27.1K	Volume Driver
Sedan	133M	29.8K	Mid Segment
Passenger	114M	28.9K	Stable Segment
Hardtop	86M	29.1K	Niche Product

Advanced Insight:

- **SUV & Hatchback** = High contribution categories (~25% each)
- **Hardtop** = Lowest contribution

Strategic Meaning:
SUV & Hatchback business backbone hai.

4 Revenue Concentration Risk

Top 5 dealers ≈ 26–27% revenue contribute kar rahe hain.

Risk:

Agar 1–2 major dealers drop ho jaye → noticeable revenue impact.

Suggested Action:

- Dealer diversification
- Low-performing dealer development
- Regional performance balancing

5️⃣ Revenue Dependency Risk (Segment Risk)

SUV revenue share ≈ 25%

Agar SUV demand drop hoti hai:

Impact = SUV Share × Demand Drop %

Example:
1% SUV drop → 0.25% total revenue impact
15% drop → ~3.75% total revenue impact

Strategic Meaning:

Business moderately dependent hai SUV segment par.

Diversification important hai.

6️⃣ What-If Scenario Modeling (Senior-Level Analysis)

Created interactive simulation:

Parameter: SUV Demand Drop %
Range: 0–30%

Live simulation shows:

- Adjusted Revenue
- Revenue Loss
- Impact %

Management real-time impact dekh sakta hai.

📌 This shows:

- Sensitivity analysis capability
- Business risk forecasting ability
- Decision-support modeling skill

7️⃣ Repeat vs One-Time Customers

- Clear repeat customer segment exist karta hai.
- Top repeat customers identified.
- Gender + City breakdown done.

Strategic Angle:

- Loyalty programs
- City-wise retention campaigns
- High-frequency buyers targeting

🎯 Final Business Conclusion

Business profitable hai, but:

✓ Moderate segment dependency (SUV)
✓ Dealer concentration risk
✓ Gender revenue imbalance
✓ Product mix opportunity

Data-driven recommendations ready for strategy planning.

💼 Interview Closing Line (Use This)

“This dashboard not only tracks performance but also identifies revenue concentration risk, segment dependency, customer behavior patterns, and includes scenario-based forecasting to support strategic decision-making.”

Very strong impact line 🔥
